

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. The term, therefore, does not include ballots upon which the voters have voted for all the candidates for General Officers of one party, and also for the General Assembly nominations of another party.

VOTES CAST

FOR AND AGAINST THE

CONSTITUTIONAL AMENDMENT, AND STATE ROADS AND ARMORY LOAN,

NOVEMBER 7, 1905.

The Constitutional Amendment submitted to the electors at the election, November 7, 1905, was:

ARTICLE XIII.

"SECTION 1. The house of representatives shall consist of one hundred members, and shall be constituted on the basis of population as shown by the United States census next preceding the apportionment, always allowing one representative for a fraction exceeding half the ratio; but each town and city shall always be entitled to at least one member; and no town or city shall have more than one-fourth of the whole number of members. The general assembly shall, after any new census taken by the authority of the United States, re-apportion the representation in conformity with the foregoing provisions. As soon as this amendment goes into effect, and after each census, and as occasion may require, the general assembly shall divide each town and city into as many districts as it is entitled to representatives, and one representative shall be elected from each district by the qualified electors thereof. Such districts shall be as nearly equal in population, and as compact in territory as possible.

"SEC. 2. This amendment shall take in the Constitution of the State the place of Section 1 of Article V, 'Of the House of Representatives,' and shall be deemed to be in amendment of said section and article.

"SEC. 3. The first election of members of the house of representatives under the provisions of this amendment shall be held on the Tuesday next after the first Monday in November, A. D. 1906."

The State Roads and Armory Loan Proposition submitted to the electors at said election was:

"Shall the general assembly be authorized and directed to provide for the issue of such an amount of State bonds as may be necessary to complete the system of State roads already approved by the general assembly, and to complete the State armory already authorized by act of the general assembly and now in process of construction in the city of Providence; these bonds to be issued from time to time, in such amounts and upon such terms as the general assembly may hereafter determine?

OFFICIAL COUNT BY THE STATE RETURNING BOARD

OF THE

BALLOTS CAST AT THE ELECTION, NOVEMBER 6, 1906.

This pamphlet shows in detail the votes cast in each voting district, ward, town, and city, at the election held November 6, 1906, for each candidate for Representatives in Congress, General Officers, and Senators and Representatives in the General Assembly; also for and against the Metropolitan Park Loan.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column of the votes for General Officers. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. The term, therefore, does not include ballots upon which the voters have voted for all the candidates for Representative in Congress and General Officers of one party, and also for the General Assembly nominations of another party.

OFFICIAL COUNT BY THE STATE RETURNING BOARD
OF THE
BALLOTS CAST AT THE ELECTION, NOVEMBER 5, 1907.

This pamphlet shows in detail the votes cast in each voting district, ward, town, and city, at the election held November 5, 1907, for each candidate for General Officers, and Senators and Representatives in the General Assembly.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column of the votes for General Officers. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. The term, therefore, does not include ballots upon which the voters have voted for all the candidates for General Officers of one party, and for any of the General Assembly nominations of another party.

OFFICIAL COUNT BY THE STATE RETURNING BOARD
OF THE
BALLOTS CAST AT THE ELECTION, NOVEMBER 3, 1908.

This pamphlet shows in detail the votes cast in each voting district, ward, town, and city, at the election held November 3, 1908, for each candidate for Electors of President and Vice-President, Representatives in Congress, General Officers, and Senators and Representatives in the General Assembly, and upon the Loan Propositions.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column of the votes for General Officers. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. MIDDLETOWN.

Senator: Ward, R., 134. *Representative:* Peckham, J.; R., 130; Peckham, F. T.; C., 6.

Owing to a misprint, the ballots used in Middletown at the election held November 3, 1908, set forth Abram A. Brown as a candidate for "representative" by Citizens Nomination Paper, instead of for "senator." The board ruled that it was bound by the face of the ballots, and therefore declared Charles H. Ward elected as senator and Joel Peckham as representative, rejecting as defective 142 ballots marked for both Abram A. Brown and Frank T. Peckham as candidates for representative, and 4 ballots marked for both Abram A. Brown and Joel Peckham as candidates for representative, because on such ballots it was impossible to determine the voter's choice. On November 10th, ensuing, the senator-elect and representative-elect filed with the town clerk their declinations to serve, and a new election was ordered to fill the vacancies, and was held on December 4th, 1908, with the following result: For Senator, Abram A. Brown, 133; scattering, 1. For Representative, Frank T. Peckham, 132; scattering 2.

OFFICIAL COUNT BY THE STATE RETURNING BOARD
OF THE
BALLOTS CAST AT THE ELECTION, NOVEMBER 2, 1909.

This pamphlet shows in detail the votes cast in each voting district, ward, town, and city, at the election held November 2, 1909, for each candidate for General Officers, and Senators and Representatives in the General Assembly, and for and against the Constitutional Amendments, Articles XIII, XIV, XV, and the Harbor Improvement Loan Proposition.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column of the votes for General Officers. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. The term, therefore, does not include ballots upon which the voters have voted for all the candidates for General Officers of one party, and for any of the nominations of another party for other offices.

VOTES CAST

FOR AND AGAINST THE

CONSTITUTIONAL AMENDMENTS AND LOAN PROPOSITION,

NOVEMBER 2, 1909.

The proposed Amendments to the Constitution and the Harbor Improvement Loan submitted to the electors at this election were:

"ARTICLE XIII.

"SECTION 1. The house of representatives shall never exceed one hundred members, and shall be constituted on the basis of population, always allowing one representative for a fraction exceeding half the ratio; but each town and city shall always be entitled to at least one member; and no town or city shall have more than one-fourth of the whole number of members. The general assembly may, after any new census taken by the authority of the United States or this state, re-apportion the representation in conformity with the foregoing provisions. As soon as this amendment goes into effect, the general assembly shall divide each town and city into as many districts as it is entitled to representatives, and after each census, or as occasion may require, the general assembly may so divide each town and city, and one representative shall be elected from each district by the qualified electors thereof. Such districts shall be as nearly equal in population and as compact in territory as possible.

"SEC. 2. This amendment shall take, in the constitution of the state, the place of section 1 of article V, 'Of the house of representatives,' which said section and all other provisions of the constitution inconsistent herewith are hereby annulled."

"ARTICLE XIV.

"SECTION 1. The lieutenant-governor shall preside in the senate and in grand committee. The presiding officer of the senate and grand committee shall have a right to vote in case of equal division, but not otherwise.

"SEC. 2. If, by reason of death, resignation, absence, or other cause, the lieutenant-governor is not present, to preside in the senate, the senate shall elect

one of their own members to preside during such absence or vacancy; and until such election is made by the senate, the secretary of state shall preside. The presiding officer of the senate shall preside in grand committee and in joint assembly.

"SEC. 3. This amendment shall take, in the constitution of the state, the place of sections 2 and 3 of article VI, 'Of the senate,' which said sections and all other provisions of the constitution inconsistent herewith are hereby annulled."

"ARTICLE XV.

"SECTION 1. Every bill, resolution, or vote (except such as relate to adjournment, the organization or conduct of either or both houses of the general assembly, and resolutions proposing amendment to the constitution) which shall have passed both houses of the general assembly shall be presented to the governor. If he approve it he shall sign it, and thereupon it shall become operative; but if he does not approve it he shall return it, accompanied by his objections in writing, to the house in which it originated, which shall enter his objections in full upon its journal and proceed to reconsider it. If, after such reconsideration, three-fifths of the members present and voting in that house shall vote to pass the measure, it shall be sent, with the objections, to the other house, by which it shall likewise be reconsidered, and if approved by three-fifths of the members present and voting in that house, it shall become operative in the same manner as if the governor had approved it, but in such cases the votes of both houses shall be determined by ayes and nays and the names of the members voting for and against the measure shall be entered upon the journal of each house, respectively. If the measure shall not be returned by the governor within six days (Sundays excepted) after it shall have been presented to him, the same shall become operative unless the general assembly, by adjournment, prevents its return, in which case it shall become operative unless transmitted by the governor to the secretary of state, with his disapproval in writing, within ten days after such adjournment."

"HARBOR IMPROVEMENT LOAN.

"Shall the general assembly be authorized and directed to provide for the issue of state bonds not to exceed the amount of five hundred thousand dollars for the acquirement and improvement of shore property in Providence, Pawtucket, and East Providence, these bonds to be issued from time to time in such amounts and upon such terms as the general assembly may hereafter determine?"

OFFICIAL COUNT BY THE STATE RETURNING BOARD

OF THE

BALLOTS CAST AT THE ELECTION, NOVEMBER 8, 1910.

This pamphlet shows in detail the votes cast in each voting district, ward, representative district, town, and city, at the election held November 8, 1910, for each candidate for Representative in Congress, General Officers, and Senator in the General Assembly, and in each representative-district and town for each candidate for member of the House of Representatives.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column of the votes for General Officers. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. The term, therefore, does not include ballots upon which the voters have voted for all the candidates for General Officers of one party, and for any of the nominations of another party for other officers.

OFFICIAL COUNT BY THE STATE RETURNING BOARD

OF THE

BALLOTS CAST AT THE ELECTION, NOVEMBER 7, 1911.

This pamphlet shows in detail the votes cast in each voting district, ward, representative district, town, and city, at the election held November 7, 1911, for each candidate for General Officers, and for Senator and Representative in the General Assembly; and also the votes cast for and against the proposed Constitutional Amendment Article XVI, and the State Highway Construction Loan.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column of the votes for General Officers. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. The term, therefore, does not include ballots upon which the voters have voted for all the candidates for General Officers of one party, and for any of the nominations of another party for other officers.

OFFICIAL COUNT BY THE STATE RETURNING BOARD
OF THE
BALLOTS CAST AT THE ELECTION, NOVEMBER 5, 1912.

This pamphlet shows in detail the votes cast in each voting district, ward, representative district, town, and city, at the election held November 5, 1912, for each candidate for Electors of President and Vice-President, Representatives in Congress, General Officers, and for Senator and Representative in the General Assembly; and also the votes cast for and against the proposed Harbor Improvement and Metropolitan Park Loans.

The number of straight ballots cast for the Republican or Democratic ticket is given at the foot of each column of the votes for General Officers. A "straight ballot" is one upon which the voter has voted for every candidate nominated by the party of his choice, and has not voted for a candidate nominated by any other party. The term, therefore, does not include ballots upon which the voters have voted for all the candidates for General Officers of one party, and for any of the nominations of another party for other officers.
